LANDSCAPE ARCHITECTURE • MASTER PLANNING • ENVIRONMENTAL DESIGN

1000+ Projects

25+ Years

1 Global Award

6 National Awards

Thendral

Residence

Padur, Chennai

The site is located off from OMR, Chennai on the banks of Muttukadu backwaters.

The 81' wide eastern boundary of the plot faces the backwaters.

The villa, a G+1 structure, is set out at site to get the best views of the backwaters and the boathouse.

The landscape concept illustrates a minimalistic design that compliments the architecture

- Merging with the surrounding natural landscape without a visual barrier.
- Extending the elements of surrounding riparian landscape into the site.
- Providing unobstructed panoramic views of the backwaters, boat house etc, from various zones and levels of the site.
- Arriving at landscape structure which seamlessly unites the architecture with the landscape.

LEAFLET '20 - '22

BIENNIAL BOOK OF ISOLA TN&PY

Leaflet '20 - '22 a Biennial Book from ISOLA TN & PY Chapter was released by the ISOLA President, Dr. Sridevi Rao & IIA President, Ar. C.R. Raju on 27th March '20 in the august presence of ISOLA TN & PY members.

This book is a compilation & documentation of all the news, events, projects, & activities about the chapter & our chapter & regional members including practicing professionals, academicians & students.

The significance lies in the expression of the scale of Landscape Architecture as a profession and the impact it has through practice, research and out reach.

An Article written by our principal Ar. Ravikumar Narayan on “Public Spaces - Connecting to Context, Culture & Communities” was published in the Biennial Book of ISOLA TN & PY “LEAFLET '20-'22”.

There's been a lot of focus on Public Spaces with the recent developments on the regeneration of our cities, especially with programs like Smart City Development.

The definition of a Public Space has widened from Parks & Plazas to Streetscapes, Roundabouts, Building Fronts, Water Fronts, Residual Spaces and even to Burial Grounds, connecting to the Context, Culture & Communities, of the place.

The resurgence of interest and focus on Public Spaces is creating a new relationship among Local Authorities, Urban Designers, Artists, Architects and Landscape Architects.
